# **RECYCLABLE PAPER**

RESOLUTION NO. \_\_\_\_\_

FULL BOARD MEETING DATE: 6/18/2009

AGENDA ITEM: \_\_\_\_\_

**MACOMB COUNTY, MICHIGAN****RESOLUTION TO** Recommend that the Macomb County Board of Commissioners

approve and authorize the submission of the Macomb County Community Services Agency's

Head Start Expansion proposal for 2009.

**INTRODUCED BY:** Commissioner Carey Torrice, Chair Public Services Committee**Background:**

The Department of Health & Human Services Administration for Children and Families Office of Head Start is providing expansion funding opportunities for Head Start programs through the American Recovery and Reinvestment Act (ARRA) of 2009. Since our wait list of children has significantly increased from 170 in September, 2008 to 641 in April 2009, we felt the need to prepare an expansion proposal.

**Funding Amount:**

The American Recovery and Reinvestment Act of 2009 Head Start expansion grant opportunity would provide an average projected award of \$500,000 per budget period for two (2) years. If our proposal was approved, an increase in our non-federal share match would increase (match would include but is not limited to: in-kind space, services, supplies, and volunteers time). No cash match is required.

**Period of Performance:**

If approved, the expansion funding would be incorporated into the annual continuation grant after two (2) years.

**Funding Utilization:**

This expansion funding proposal would increase the number of pre-school age children from 842 to approximately 910 slots. The funds are available to provide services to underserved children and families residing in the defined federally approved service area. Macomb County is a defined, approved service area, and therefore may apply for funding to serve additional low-income children.

The proposal for the expansion grant funding includes adding a "Home Base program" option to the current Head Start program to serve needy children and their families. "Home Base" Head Start would provide pre-school educational instruction for children in the natural environment of their home. The proposal also includes the addition of Head Start classrooms in identified underserved areas of Macomb County, providing an opportunity for serving additional children in classroom settings. Transportation costs needed to provide expanded services will also be included in this proposal.

AGENDA ITEM: \_\_\_\_\_

**MACOMB COUNTY, MICHIGAN****RESOLUTION TO** Recommend that the Macomb County Board of Commissionersapprove and authorize the submission of the Macomb County Community Services Agency'sEarly Head Start proposal for 2009.**INTRODUCED BY:** Commissioner Carey Torrice, Chair Public Services Committee**Background:**

The Department of Health & Human Services Administration for Children and Families Office of Head Start is providing early Head Start funding opportunities through the American Recovery and Reinvestment Act of 2009. This grant opportunity would provide services for children from birth to three (3) years of age. Services are also available for pregnant women.

**Funding Amount:**

The American Recovery and Reinvestment Act of 2009 for Early Head Start programs would provide an average projected award amount of \$1,200,000 per budget period for two years. If our proposal was approved, an increase in our non-federal share match would increase (match would include but is not limited to: in-kind space, services, supplies, and volunteers time). No cash match is required.

**Period of Performance:**

The funding would be a separate line-item in the Head Start budget supported by federal money for two years. If not supported by the federal government at the end of the two years the program would end.

**Funding Utilization:**

The Early Head Start program option will serve Macomb County income eligible pregnant women and children birth to three (3) years of age. We are seeking this Early Head Start funding opportunity based on our community needs assessment and low-income family surveys. The grant funds are available to provide services to underserved children and families residing in the defined federally approved service area. Macomb County is a defined, approved service area, and therefore may apply for funding to serve this population. The estimated number to be served, by the additional grant funds, is approximately 80 low-income children. Families and pregnant women will be served in the grant proposal.

Early Head Start grant funds will provide services through partnerships with local community organizations and childcare businesses. This program option will offer high quality year round daycare services and highly individualized home based services for low income families in Macomb County. Early Head Start grant funds will be used to collaborate with community partners and monitor referrals for needed services, providing staff supervision and training along with equipment, materials and supplies. Transportation costs needed to provide mandated services will also be included in this proposal.
